

## **STUDENTS - Series 500**

### **504 Student Health and Safety Regulations**

#### **504.11 Fire/Tornado/Disaster Drills**

By mandate of the state fire marshal, school officials shall conduct periodic fire and tornado drills during the school year. Required drills are: two fire and two tornado drills prior to January 1 and two fire and two tornado drills between January 1 and the end of the school year. A record of these drills shall be furnished by each principal to the Central Office. Fire safety standards will be checked each year to ascertain that schools are meeting state standards.

Procedures for responding in case of emergency or disaster shall be maintained in each building office for students with disabilities. These procedures shall reflect the needs of those students in emergency disaster situations and shall be reviewed with staff and students.
