

EDUCATIONAL PROGRAM - SERIES 600

602 Programs of Instruction

602.19 Global Education

Because of our growing interdependence with other nations in the world, global education shall be incorporated into the education program for grades kindergarten through twelve so students have the opportunity to acquire a perspective on world issues, problems and prospects for an awareness of the relationship between an individual's self-interest and the concerns of people elsewhere in the world. Global education, in the education program, is the lifelong growth in understanding, through study and participation of the world community and the interdependency of its people and systems-social, cultural, racial, economic, linguistic, technological and ecological.
